#### PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 140 people and manufactures the world's best-known mills!

The whole process is carried out onsite - from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

#### EXPERTISE IN FOUR KEY AREAS

#### **METAL**

Ever since the company was founded, metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

#### WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

#### PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colors, whether natural finishes, bright colors, matte tones or lacquer.

#### **ASSEMBLY**

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

If our company ever requires an area of expertise that lies outside the company, we only work with the most exclusive partners. For example, the European glass factories that produce our decanters are experts in the traditional technique of mouth-blowing and hand-finishing glass, meaning that every product is truly unique.

### PEUGEOT OUR HERITAGE

#### 210 years of history

French-made products are inextricably woven into our DNA. It is part of our legacy.

85 %
